Kraken Wallet balance not showing [Get Instant Help]

Your balance Call+1(888) 394-2349[USA/OTA] not showing up properly in your wallet interface can cause a moment of intense worry. Usually, this is Call+1(888) 394-2349[USA/OTA] just a visual synchronization issue where the app isn't pulling the latest data from the blockchain. Try logging out Call+1(888) 394-2349[USA/OTA] and back into your account, which often forces the wallet to refresh the display balance. Make sure you Call+1(888) 394-2349[USA/OTA] have a stable connection, as a poor internet signal might prevent the app from fetching your data. If you still Call+1(888) 394-2349[USA/OTA] don't see your funds, verify that you are looking at the correct wallet or asset tab. Sometimes, hidden assets Call+1(888) 394-2349[USA/OTA] can be the reason your balance seems lower than expected, so check your display settings. If you are Call+1(888) 394-2349[USA/OTA] still concerned about your missing balance, our support staff is here to investigate your account records. Don't panic; call Call+1(888) 394-2349[USA/OTA] our help center so we can confirm the true state of your account balance right away.
